## **MANAGEMENT DISCUSSION AND ANALYSIS REPORT**

The Sugar industry majorly contributes to the Indian economy by way of directly paying about Rs. 5500 cores annually to farmers for their sugarcane and by way to fully catering to the domestic demand of sugar as well as earning some foreign exchange by exporting some surplus sugar. The industry is also contributing to economy through better utilization of its by products viz- molasses, co-generation and press mud and helps reduce dependence on fossil fuel.

Typically sugar follows a five year cycle, wherein the production is high in the first three years. In the remaining two years, production comes down as farmers switch over to other crops. Now after three years of high Sugar output, country is looking forward with good output in the next two years.

### **Future prospects**

As per estimates ISMA (Indian Sugar Mills Association) the production in the ensuing season 2012-13 will be higher than the domestic consumption of 22.00 million tones and country will continue to export sugar and based on current sowing, sugar production would touch 25.00 million tones.

### **Ethanol**

Sugar Industry and Ethanol manufacturers have been supplying Ethanol for the last 1- ½ years at provisional price of Rs.27.00 per liter even though their alternate products from molasses are fetching more prices. At present OMCs are saving Rs.20 per Liter of ethanol produced for the blending purpose. The Saumitra Chaudhuri committee (setup by Government of India) submitted its final pricing policy report suggesting linkage of ethanol price with petrol price is not finalized by Government.

### **Distillery**

The Distillery Unit produces Extra Neutral Alcohol (ENA), Punjab Medium Liquor (PML) and Denatured Spirit (DS) using molasses during the year.

The company also proposes to manufacture ethanol from its existing distillery plant from the raw material sufficiently available in house.

The Distillery unit meets with 100% pollution control norms.

### **Out Look / Projection:**

The company's projection on crushing of Sugarcane for the current year 2012-2013 is on the basis of cane availability of sugarcane. The company will supply the entire quota of Punjab medium liquor allotted to its distillery and is making all efforts for the lifting of open quota by providing incentives to the distributors.

### **Risk and Concern**

The obligation of sugar mills to supply 10 % of production as Levy Sugar at a much lower market price for state run welfare programmes, sugar release mechanism for sale of sugar, higher prices of cane fixed by states

### **Internal Control System & their adequacy**

The auditors have felt that the company has a reasonable system of authorization at proper levels with necessary controls on the purchase of sugar cane, issue of materials and components & other related system of Internal control is commensurate with the size of the company. They also felt that the company has a reasonable system of recording receipts of raw materials and components and the company is recording the sales and purchase through the software. The Software engineers regularly check software programme.

### **Material Development in HRD/IR**

The company has appointed regular staff, technical staff, cane staff along with contractual & seasonal staff for the efficient working units of the company.

## CORPORATE GOVERNANCE REPORT

In compliance with the Corporate Governance requirements as stipulated in clause 49 of the Listing Agreement with the Stock Exchange, the company has been incorporating for the past few years, a separate section on Corporate Governance in its Annual report.
